Non-Destructive Testing

Hi-Tech X-Ray Modules for inspecting critical parts

iXRS 225 / MXR-225

iVario X-Ray Modules – The Perfect Fit

Easy integration into a multitude of applications
thanks to a variety of interfaces

Shorter maintenance downtimes
thanks to a flexible field and remote service concept

Higher application uptimes
thanks to upcoming preventive maintenance features

Continuously extending functionality
thanks to regular software updates and upgrades

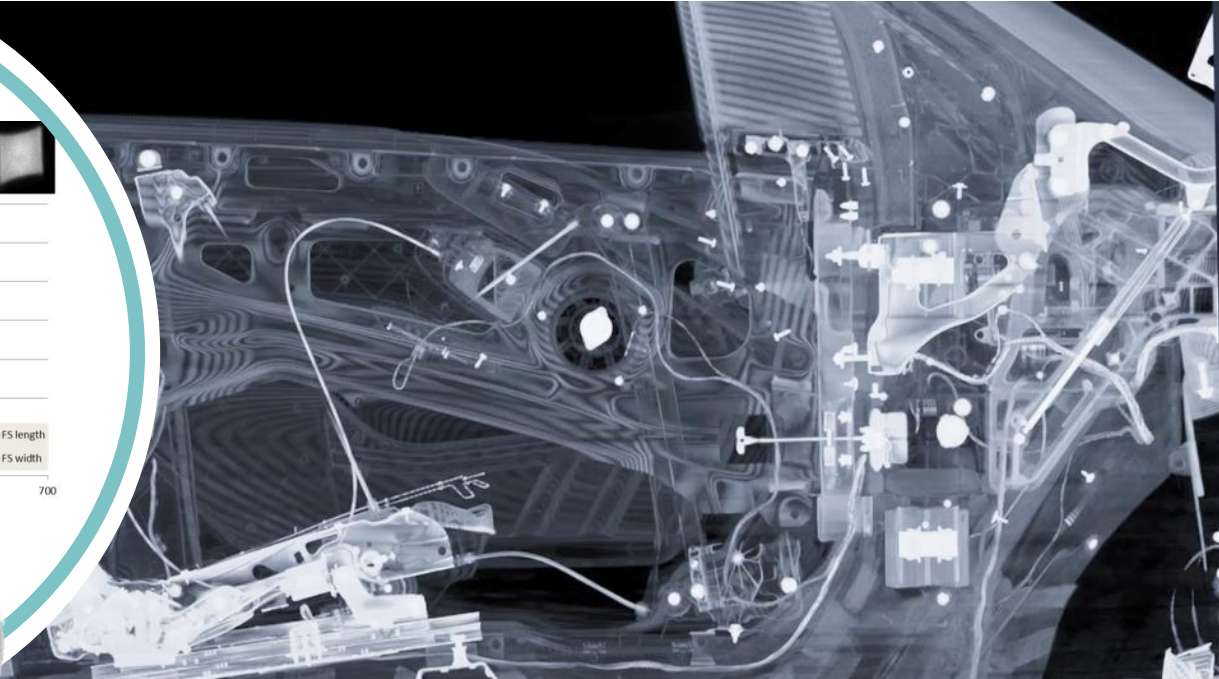

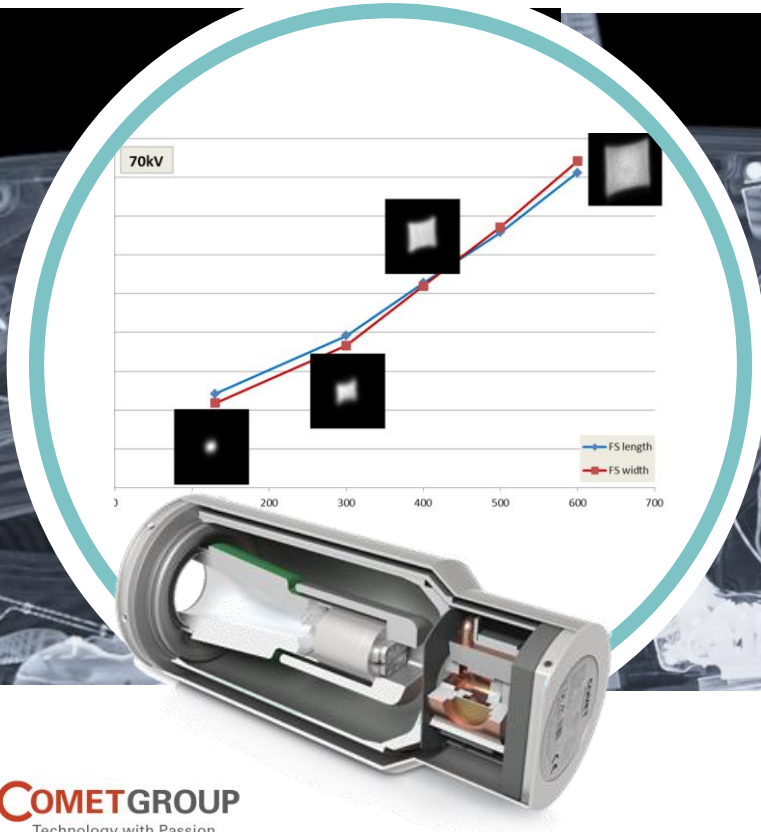

IoT ready
thanks to full T3 protocol implementation

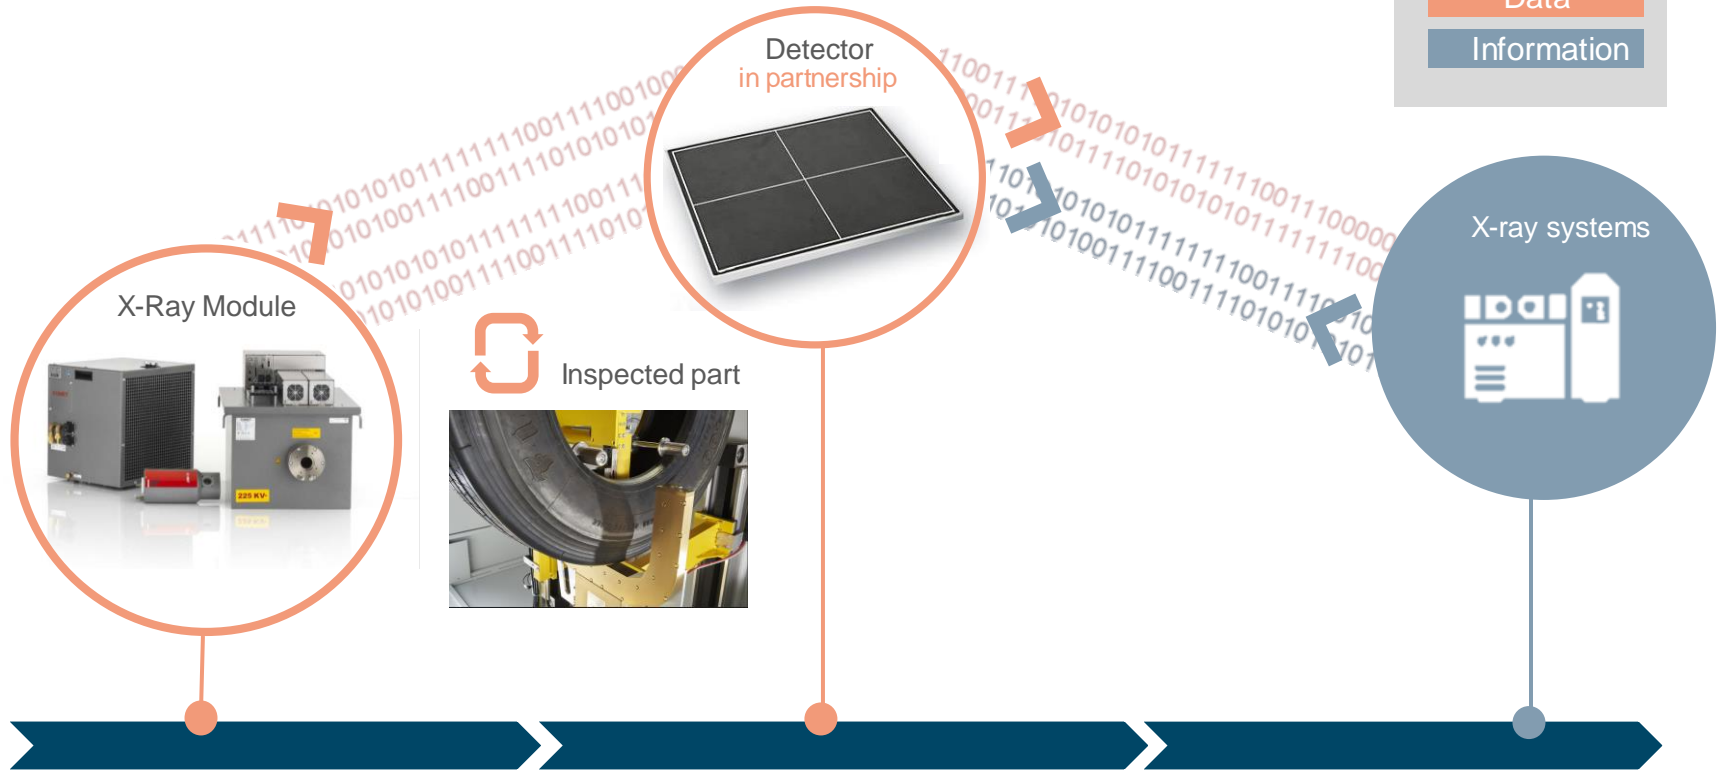

iXRS 225 / MXR-225

New X-Ray tubes allowing better resolution for more parts
